## Alexandria Gazette

SATURDAY EVENING, MAY 25, 1878.

A TORTOISE'S AGE .- Mr. D. H. Willard No. 51 Capital avenue, says that in the year 1838, on the east farm, half a mile south of the Newington railroad junction, he came across a very large and beautiful spotted box or hinge tortoise (so called from its power to close its upper and under shells firmly together.) Turning it upside down he inscribed on it his own initials, and the date, letting himfree. In 1862 he found the same fellow again half a mile west. He had crossed two bridges or forded the streams, and three railroad tracks. The new date was then added, the first inscription being very distinct. He has not seen him since until last Saturday, 18th, when he espied him on his west farm, near the New Britsia line, about one and one half miles from the first point named, looking as hale and hearty as ever, but not increased in size perceptibly. He was duly marked 1878 and sent on his way with this query:—"At this rate of travel, when will you reach the Pacific coast?"—Hart ford Times, May 21.

The New Orleans Picayune, having tried it, gives the world this about hair cutting at this season: "It depends upon the shape of a young man's head whether or not he can wear it becomingly in summer without hair. The size and location of a man's ears should also he considered before he submits to capillaceous clipping. The car that is established high up and has the appearance of being always trying to get away from the head, is less conspicuous if partly concealed beneath curling locks of hair."
